BESTCOMP GROUP

Unlock The Door To
Digital Future

Company Profile

About us

Founded in 1995 Bestcomp Group is a premier system integrator in the region, with 30 years of invaluable expertise. Headquartered in Azerbaijan, and with regional offices in Georgia and Central Asia, we are strategically positioned to deliver comprehensive, turnkey IT solutions and services across these markets.

We hold the highest partnership statuses with leading global technology companies, enabling us to provide our customers with exceptional service and expert guidance. Our diverse project portfolio, consisting of hundreds of successfully executed projects in Azerbaijan, Georgia, and Central Asia, is an evidence to our commitment to excellence and innovation.

Our strong dedication to professionalism has established Bestcomp Group as one of the industry's most respected IT companies. With a dynamic team of over 400 specialists, we are committed to continuous growth and development. Our team has acquired over 500 certifications from top international organizations, underscoring our commitment to maintaining the highest levels of expertise and service.

Bestcomp Group is certified in ISO 9001:2015 (Quality Management Systems), ISO 45001:2018 (Occupational Health and Safety Management Systems), ISO 27001:2013 (Information Security Management Systems), and ISO 37001:2016 (Anti-Bribery Management Systems). These certifications reflect our commitment to delivering safe, high-quality products and services, while upholding robust information security and a healthy, secure workplace. By adhering to these globally recognized standards, we drive operational excellence, enhance customer satisfaction, and deliver significant business value.

Core Values

- PROFESSIONALISM
- AGILE
- QUALITY
- INNOVATION
- TRUST
- EFFICIENCY
- CREATIVITY

Vision

Expanding innovative solutions and services as a leading company in the region's ICT sector;

Mission

Introducing cutting-edge technology and products to the market to develop efficient IT solutions and applications for customers.

Goals

Educating IT personnel and actively participating in society's IT awareness initiatives.

With 30 years of industry experience,

we have been a driving force in the digital transformation of businesses and organizations across the region.

| **3750+** Projects completed	**10 000+** Customers	**500+** Certifications	**7** Countries

Our Digitalization Strategy

Service
- 27/7 technical support
- Authorized service center
- Technical service and maintenance services

Information & Cybersecurity solutions
- Consultancy and audit services
- Cybersecurity testing services
- Compliance services

IT Solutions and Software Development
- Software solutions for business process automation
- Mobile applications and tailored software development
- Design and development of platforms and applications

IT Infrastructure Solutions
- Servers and storage systems
- Network and telecom infrastructures
- Design and installation of data centers
- Power and Cooling systems
- Structured Cabling systems

Awards and Certificates

During years of activity Bestcomp Group has been honoured with dozens of prizes and diplomas. The company is particularly proud of:

- Honorary diploma from the "Ministry of Transport, Communications and High Technologies" for successful contribution to "Eurovision Azerbaijan" song contest organization;
- "Growth Award 2017" from HP for being the "Partner of the year" among 24 Eastern European countries, Chicago, United States;
- "The Best Partner 2017" from Hewlett Packard Enterprise;
- "Crystal Scales of Justice Prize 2017" for an initiative entitled "Court Pulse the Management Evolution" organized by European Commission for the Efficiency of Justice in Edinburgh, Scotland;

- "Rising Star" Award from Uniview
- "The Best Company Presentation" at Bakutel 2017 from Caspian Event Organizers.
- "The Partner of the Year 2019" from Cisco, Las Vegas, USA
- "The Most Fascinating Stand" at Bakutel 2019 from Caspian Event Organizers.
- "The Partner of the Year 2020" from Cisco, Las Vegas, USA
- "IT Company of the Year 2021" from Caspian Energy Club.
- "Project Distributor of the Year 2022" from APC by Schneider Electric
- "Value Partner of the Year 2023" from Lenovo

Group members

Our vision is the foundation of our success. By predicting market trends and customer needs, we have created roadmap that guides our growth and expansion. This vision has allowed us to strategically align our resources and efforts, ensuring that we deliver maximum value.

To tailor to the various needs of our customers, Bestcomp Group has brought together three specialized subsidiaries. Each subsidiary operates with a specific focus, allowing us to provide shaped solutions and services across various sectors.

HTech Invest

HTech Invest, established in 2015, is the region's first and only factory dedicated to assembling Acer computers. Just our mission extends beyond manufacturing; we are committed to fostering an innovative and knowledge-based economy in the region. With over 4 million AZN invested and a dedicated team of more than 40 employees, HTech Invest specializes in assembling a range of Acer products, including laptops, desktops, all-in-one computers, and nettops. We have successfully delivered numerous projects both locally and internationally, exporting to countries such as Uzbekistan, Kyrgyzstan, Tajikistan, Kazakhstan, and Georgia.

To date, HTech Invest has produced over 60,000 units, contributing significantly to the ICT sector's competitiveness, attracting foreign investments, developing human resources, and establishing a robust management base. Through our efforts, we support intellectual business growth and enhance the region's economic landscape.

Bestel

Experience the best in IT retail at our three dedicated shops in Baku, where we specialize exclusively in IT products. Our knowledgeable specialists are on hand to help you choose the perfect products to meet your specific requirements. We don't just sell products; we also provide comprehensive post-sale services to ensure you have ongoing support.

BnB Security Alliance

Established in 2019, B&B Security Alliance is dedicated exclusively to cybersecurity, providing comprehensive solutions to help customers stay resilient against both new and existing threats. As a joint venture between Bestcomp Group and Barikat Cyber Security, we combine unparalleled expertise and cutting-edge technologies to deliver advanced cyber security services. We work with both private and government companies, delivering cutting-edge security solutions tailored to their unique needs.

How Empower Your Business?
Solutions We Provide

Turnkey Data Center Solutions

In today's data-driven world, it is essential to have a reliable and efficient data center to support business operations and growth. Our Turnkey Data Center Solutions Portfolio delivers end-to-end services and technologies designed to provide scalable, energy-efficient and secure infrastructure for the customer's IT needs. We handle every aspect of data center design, deployment, and management to ensure seamless operations.

Our team of expert engineers and consultants certified by the industry leaders such as Uptime Institute, Schneider Electric, HPE, Eaton, Cisco and many others brings deep expertise in building data centers tailored to meet the unique requirements of each client. Whether you're looking for building a new facility or upgrading the existing one, our turnkey solutions offer reliability, efficiency and flexibility to support your business goals.

Navigating regulatory requirements can be complex, especially in the industries with stringent data protection standards. We provide compliance solutions that ensure the customer's data center meets industry regulations, including HIPAA, GDPR, and PCI-DSS.

By offering fully integrated turnkey data center solutions, we empower organizations to build and operate efficient, scalable and secure data centers. Our holistic approach ensures that every aspect of the customer's data center infrastructure is optimized to reach the goals, support the business growth and operational efficiency.

Projects we have delivered

- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- Reserve Data Center for Executive Office of the President, Tajikistan.

Our Capabilities

- Data Center Design and Build
- Modular Data Centers
- Power and Cooling Solutions
- Data Center Migration Services
- Infrastructure Management and Monitoring
- Security and Access Control
- Cloud Integration and Hybrid Solutions
- Energy Efficiency and Sustainability
- Disaster Recovery and Business Continuity
- Managed Data Center Services
- Compliance and Regulatory Solutions

Cybersecurity Solutions

In an era of escalating cyber threats, robust cybersecurity is essential for safeguarding sensitive data, systems, and operations. Our Cybersecurity Solutions Portfolio offers comprehensive services and technologies designed to protect your organization from digital threats, ensure regulatory compliance, and enhance your overall security posture.

Our team of certified cybersecurity experts and consultants possesses deep experience in identifying, mitigating, and responding to a wide array of cyber threats. We customize our solutions to meet the unique security needs of each client, considering your risk profile, industry regulations, and business goals.

Our Capabilities

- Cybersecurity Consulting Services
- Cutting-Edge Threat Defense
- Customized Security Architecture
- Physical Security Integration
- Network Security
- Endpoint Protection
- Identity and Access Management (IAM)
- Security Information and Event Management (SIEM)
- Cloud Security
- Vulnerability Assessment and Penetration Testing
- Incident Response and Recovery
- Proactive Threat Detection
- Multi-Layered Protection
- Cybersecurity Awareness Training

By providing a fully customized approach to cybersecurity—and integrating physical security measures—we enable organizations to protect their digital and physical assets, maintain business continuity, and comply with industry regulations in an ever-evolving threat landscape.

Data Analytics & Business Intelligence Solutions

Data Analytics & BI Services empower organizations to gather, process, analyse, and visualize data from diverse sources, including internal databases, external systems, and unstructured data like social media and IoT devices.

Our Capabilities

- Data Strategy & Consulting
- Data Integration & Management
- Advanced Analytics & Predictive Modeling
- Business Intelligence & Reporting
- Data Visualization
- Data Security & Compliance

As experts in transforming raw data into strategic assets, we empower organizations to harness the power of data for insightful decision-making and competitive advantage.

Projects we have delivered

- Digital Transformation for Ministry of Justice of the Republic of Azerbaijan
- DWDM & MPLS Expansion for Aztelekom Connectivity
- Upstream Field Network Modernisation on BP Platforms
- Baktelecom ICT Infrastructure Transformation
- Network modernization at Aztelekom
- ICT Infrastructure Rollout for Leading Brands at Crescent Mall
- Case Management System for Ministry of Justice of the Republic of Azerbaijan
- Court Recording and Transcription System for Ministry of Justice of the Republic of Azerbaijan
- Document Management System for Government and Private sectors
- E-health Card System

- Unified Migration Information System for the State Migration Service
- State Register of Inspections of Private Business
- HR Solution for Government and Privat sectors
- E-notary for Ministry of Justice of the Republic of Azerbaijan
- E-Icra for Ministry of Justice of the Republic of Azerbaijan
- E-Rüsum for The State Treasury Agency of the Republic of Azerbaijan
- State Population Register Service under the Justice Ministry of Azerbaijan
- Cutting-Edge Platform for COP 29
- Business Intelligence (BI) Platform for The Ministry of Justice

Compute & Storage Solutions

Boost your business with our scalable server, storage, and virtualization solutions, backed by our partnerships with top vendors and our expertise in integrated solutions.

Compute & Storage infrastructure play a critical role in powering modern businesses. Our portfolio offers a comprehensive suite of technologies, services, and strategies designed to optimize and manage computing resources effectively.

Our Capabilities
- Servers
- Storages
- Virtualization
- Containerization
- Cloud Computing
- Edge Computing

Our experienced team enhances the performance and stability of critical software and IT infrastructure by seamlessly integrating complex systems.

Projects we have delivered
- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- Reserve Data Center for Executive Office of the President, Tajikistan.

Network Solutions

Network infrastructure forms the backbone of modern businesses, facilitating seamless communication and data exchange. Network Solutions offers a robust suite of technologies, services, and strategies designed to optimize network performance, security, and reliability for our customers.

Our Capabilities
- Network Design and Optimization
- Network Security Solutions
- Wireless and Mobility Solutions
- Software-Defined Networking (SDN)
- Cloud Networking
- Unified Communications (UC)

Our certified network engineers and consultants bring extensive experience in designing, implementing, and optimizing complex network environments. We understand the unique challenges and requirements of each customer and provide customized solutions that align with specific business goals, scalability needs, and budget considerations.

Projects we have delivered
- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- Reserve Data Center for Executive Office of the President, Tajikistan

- Digital Transformation for Ministry of Justice of the Republic of Azerbaijan
- DWDM & MPLS Expansion for Aztelekom Connectivity
- Upstream Field Network Modernisation on BP Platforms
- Baktelecom ICT Infrastructure Transformation
- Network modernization at Aztelekom
- ICT Infrastructure Rollout for Leading Brands at Crescent Mall

Telecom Networking Solutions

The telecom and service provider market is highly dynamic and extremely competitive. Critical network infrastructure requires continuous innovation adoption, service agility, and carrier-class availability. Only a system integrator with significant investment in developing a professional team and a portfolio of successfully built service provider infrastructures can become a trusted advisor and reliable business partner in such an environment.

Our Capabilities

- Network Solutions Architecture and implementation
- Modern Technology Integration
- Optical Network Solutions

Projects we have delivered

- DWDM & MPLS Expansion for Aztelekom Connectivity
- Upstream Field Network Modernisation on BP Platforms
- Baktelecom ICT Infrastructure Transformation
- Network modernization at Aztelekom

Physical Security Solutions

Physical security is a critical aspect of safeguarding assets, personnel, and operations in today's dynamic business environment. Our Physical Security Solutions Portfolio offers a comprehensive suite of technologies, services, and strategies designed to protect your organization against physical threats and vulnerabilities, including those posed by modern and evolving threats.

Our Capabilities

- Access Control Systems
- Video Surveillance (CCTV)
- Intrusion Detection Systems
- Perimeter Security
- Integrated Physical Security and Management
- Modern Threat Protection
- Risk Assessment and Security Audits
- Security Training and Awareness

Our team of certified security specialists and consultants brings extensive experience in designing, implementing, and managing complex physical security systems. We understand that all client's security requirements are unique, and our solutions are tailored to meet specific operational needs, risk profiles, and budget constraints.

Projects we have delivered

- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- ICT Infrastructure Rollout for Leading Brands at Crescent Mall

Audio-Visual Solutions

Our Audio-Visual Solutions Portfolio provides cutting-edge technologies designed to enhance communication, collaboration, and presentation across various environments. From corporate boardrooms to event spaces, we deliver customized solutions that improve both visual and auditory experiences, incorporating the latest industry technologies to ensure seamless integration and functionality.

Our Capabilities

- Video Conferencing Solutions
- Audio Systems
- Digital Displays and Signage
- Projectors and Presentation Systems
- AV Integration
- Control Systems
- Ongoing Support and Maintenance

Our experienced team enhances the performance and stability of critical software and IT infrastructure by seamlessly integrating complex systems.

Projects we have delivered

- Digital Transformation for Ministry of Justice of the Republic of Azerbaijan
- Court Recording and Transcription System for Ministry of Justice of the Republic of Azerbaijan
- Haydar Aliyev International Airport

Structured Cabling Solutions

Structured cabling refers to the standardized and organized approach of designing and installing a cabling infrastructure within a building or campus environment. It provides the foundation for all information technology (IT) and telecommunications systems, including voice, data, video, and other services.

Our Capabilities

- Consultation and Design
- Cabling Installation and Integration
- Connectivity Solutions
- Testing and Certification

Our certified technicians, skilled in implementing standards-compliant installations, ensure that our structured cabling solutions meet the highest quality and performance benchmarks. Our comprehensive services include design, installation, testing, and maintenance, all guided by industry-leading standards for optimal network reliability and efficiency.

Projects we have delivered

- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- DWDM & MPLS Expansion for Aztelekom Connectivity
- Baktelecom ICT Infrastructure Transformation
- Network modernization at Aztelekom
- ICT Infrastructure Rollout for Leading Brands at Crescent Mall

Software Solutions Portfolio

In today's digital landscape, leveraging the right software is critical to streamline operations, enhance productivity, and drive innovation. Our Software Solutions Portfolio offers a wide range of vendor-provided software products designed to meet the unique needs of your business. From enterprise applications to specialized industry software, we deliver solutions that help you stay competitive in an evolving marketplace.

Our team of software experts with leading global vendors to provide you with the latest software technologies. We tailor our offerings to match your specific business objectives, ensuring seamless integration, scalability, and optimal performance.

Our Capabilities

OWN DEVELOPMENTS

Document Management System:

Our Document Management System offers a robust solution for organizing, storing, and accessing critical documents. It enhances workflow efficiency by automating document control, streamlining approval processes, and ensuring compliance with regulatory requirements.

Human Resources System:

Our Human Resources System is designed to simplify HR operations, including recruitment, employee records management, performance evaluations, and payroll. This system integrates seamlessly with your existing infrastructure, improving HR efficiency and employee engagement.

OTHER SOLUTIONS

Office Applications

Enhance productivity and collaboration with Office applications from Microsoft. Our offerings include Microsoft Teams for communication, SharePoint for content management, and Exchange Online for email services. We also provide access to the full suite of Office applications, including Word, Excel, and PowerPoint, ensuring your team has the tools they need to work efficiently.

Monitoring Software

Ensure the continuous health of your IT infrastructure with our advanced monitoring software solutions. We provide tools that monitor network performance, server health, and application uptime in real time. With proactive alerts and detailed reports, our monitoring software enables swift responses to issues, minimizing downtime and enhancing operational efficiency.

Automation Software

Streamline your business processes with cutting-edge automation software. Our portfolio includes automation tools for workflow optimization, robotic process automation (RPA), and IT process automation. These solutions help you reduce manual tasks, increase efficiency, and lower operational costs by automating repetitive processes across various departments.

Data Analytics and Business Intelligence

Turn your data into actionable insights with our data analytics and business intelligence software solutions. We offer a range of products that provide data visualization, predictive analytics, and reporting capabilities, enabling you to make informed business decisions and uncover new growth opportunities.

Cybersecurity Software

Protect your business from digital threats with cutting-edge cybersecurity software from trusted vendors. Our portfolio includes firewall solutions, endpoint protection, encryption tools, and advanced threat detection software to safeguard your network, devices, and sensitive data from cyberattacks.

Cloud Management Software

As more businesses move to the cloud, our cloud management software solutions provide seamless oversight of your cloud infrastructure. We offer products that help you monitor usage, optimize resources, and ensure compliance across public, private, and hybrid cloud environments.

Collaboration and Communication Tools

Enhance team productivity with powerful collaboration and communication software from leading vendors. Whether you need video conferencing, project management tools, or real-time collaboration platforms, our solutions enable efficient teamwork and streamline workflows across your organization.

Backup and Recovery Solutions

Data loss can have severe consequences for your business. Our backup and recovery software ensures your critical data is securely stored and quickly recoverable in the event of a disaster. We partner with top vendors to provide automated, cloud-based backup solutions that guarantee business continuity.

Virtualization and Infrastructure Management

Optimize your IT infrastructure with our virtualization and infrastructure management software solutions. We offer leading software that allows you to virtualize servers, storage, and networks, ensuring better resource utilization, cost savings, and simplified IT management.

Industry-Specific Software

We understand that different industries have unique requirements. Our portfolio includes industry-specific software tailored to sectors like healthcare, finance, manufacturing, and retail. These solutions help businesses address regulatory challenges, streamline operations, and meet customer expectations.

Software Licensing and Compliance

Navigating software licensing can be complex, but we simplify the process by offering end-to-end licensing management services. We ensure that your organization is compliant with vendor agreements, helping you avoid costly penalties and optimize your software investments.

Vendor Support and Maintenance

We provide comprehensive support and maintenance services for all the software products we sell. Our team works closely with vendors to offer regular updates, security patches, and technical support, ensuring that your software remains up-to-date and fully functional.

By partnering with top software vendors, we offer a wide range of solutions that help organizations improve efficiency, drive innovation, and stay ahead of the competition. Our tailored approach ensures that you have the right tools to meet your business objectives, while we handle everything from licensing to support.

Projects we have delivered
- Digital Transformation for Ministry of Justice of the Republic of Azerbaijan
- Case Management System for Ministry of Justice of the Republic of Azerbaijan
- Court Recording and Transcription System for Ministry of Justice of the Republic of Azerbaijan
- Document Management System for Government and Private sectors
- E-health Card System
- Unified Migration Information System for the State Migration Service
- State Register of Inspections of Private Business
- HR Solution for Government and Privat sectors
- E-notary for Ministry of Justice of the Republic of Azerbaijan
- E-Icra for Ministry of Justice of the Republic of Azerbaijan
- E-Rüsum for The State Treasury Agency of the Republic of Azerbaijan
- State Population Register Service under the Justice Ministry of Azerbaijan
- Cutting-Edge Platform for COP 29
- Business Intelligence (BI) Platform for The Ministry of Justice

Transforming Challenges into Opportunities
Services We Provide

System Integration

The telecom and service provider market is highly dynamic and extremely competitive. Critical network infrastructure requires continuous innovation adoption, service agility, and carrier-class availability. Only a system integrator with significant investment in developing a professional team and a portfolio of successfully built service provider infrastructures can become a trusted advisor and reliable business partner in such an environment.

Our Capabilities

- Assessment and Analysis
- Custom Integration Solutions
- Planning and Deployment
- Testing and Quality Assurance
- Training and Support

As an industry leader in Information technology, we cover comprehensive system integration services designed to optimize your technology infrastructure and drive business success. With a focus on seamless connectivity, security, and efficiency, we provide tailored solutions to ensure your IT systems are integrated and function smoothly.

Projects we have delivered

- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- Reserve Data Center for Executive Office of the President, Tajikistan

Managed Services & 24/7 Support

In today's fast-paced digital landscape, businesses need reliable, proactive IT management and round-the-clock support to ensure uninterrupted operations. Our Managed Services & 24/7 Support Portfolio provides a comprehensive suite of solutions designed to optimize IT infrastructure, minimize downtime, and deliver continuous support to meet the ever-evolving needs of our customers.

Our team of certified IT professionals and service desk specialists brings extensive experience in managing complex IT environments. We understand that each business has unique operational demands, and our managed services are customized to align with your specific business objectives, scalability requirements, and budget considerations.

Our Capabilities

- Proactive IT Monitoring and Maintenance
- Help Desk and Remote Support
- Managed Network Services
- Backup and Disaster Recovery Solutions
- Managed Security Services
- Patch Management and Updates
- On-Site and Remote Support
- Service Level Agreements (SLAs)

Customized Reporting and Analytics

By leveraging our Managed Services & 24/7 Support, businesses can focus on growth and innovation, confident that their IT infrastructure is being proactively managed, supported, and optimized for peak performance.

Projects we have delivered

- Tier 3 Certified Data Center ICT Solutions for Ministry of Justice, Azerbaijan
- Primary & Backup Data Centers for Ministry of Finance, Tajikistan
- Reserve Data Center for Executive Office of the President, Tajikistan

Business Process Automation

In today's competitive landscape, efficiency and agility are paramount for organizational success. Our Business Process Automation (BPA) Portfolio enables businesses to transform their operations by automating repetitive tasks, optimizing workflows, and driving overall productivity. By harnessing the power of intelligent automation, we help companies reduce costs, minimize human error, and create more streamlined and scalable processes, allowing teams to focus on high-value, strategic activities.
